Agenda:

1. Talked through the **development of the pupil voice SEF** and discussed the experience of joining staff meeting on 22nd Jan.
Some children were in the leadership discussion group and were aware that they needed more time to answer the questions. I informed them that Miss Craig is hoping to meet with them again during an assembly time.
2. **Which area of the SEF would you like to focus on during Term 4?**
Children chose to focus on an area for improvement from the 'Personal development, behaviour and welfare' section.
Action: After discussion, the school council decided that they would like to reintroduce attendance certificates for the best class each week. They hope that this can also be linked to some kind of reward system, where the highest attending class can earn a 'treat' at the end of term.
3. **Action:** The school council would also like to create posters to encourage high attendance and highlight the potential consequences of low attendance.
4. Sophia made a very valid point that it seems unfair that her attendance figure drops every time she needs to go to a medical appointment. She wondered if there's any way this can be taken into account when attendance is calculated.
