### Whole School contributions- Input from class council meetings:

1. How can improve the school grounds?
2. How can we be more eco friendly?

1 – - Plant our seeds (from the competition) in our school grounds.

- Bee hives
- - Plant things that would encourage insects or birds to visit our field.
- Bug hotels.
- Bird table/ bird boxes/ bags of nuts?
- Set up cameras to watch the wildlife and put it on the big screen at lunch time.

2 –

- Put recycling boxes out on the playground
- Use recyclable objects to create a shanty town.
- To save paper use 1 book for 2 subjects. Eg History/Geog
- Use old cartons for paint pots.
- Peelings from veg or fruit from the kitchen should be put in a compost heap.
- Washing up station in the dinner hall so that ch can clean their own yog pots ready to be recycled.

**AOB:**

- 1 – School dinners have chocolate eg brownies so why can't we have chocolate in our packed lunches?
- 2 – Equipment needs – things to climb or slide on.
- 3 – Fair play award has been won by Ava's class – she enjoyed playing with the new football.
