BLP Focus – Managing distractions

This means you are able to recognise possible distractions and ensure you stay on task. You can create your own best environment for learning.

Over the next two weeks can you manage your distractions when carrying out a task at home by:

-Timing how long it takes you to write out your 9 times table. The next day time yourself again, however play music in the background or get someone to do a funny dance to try to distract you. Do you still get the same time?

- Singing your favourite song whilst someone else sings theirs. Can you stay on track?

-Creating a family distraction list, before starting an activity together, to ensure everyone stays on task. Let us know what you have done as a family, you could blog about it (don't forget to tag it BLP) or send us a picture!

School Council - The School Council have chosen to focus on improving school attendance as their project this term. They have designed a poster to encourage high attendance, and have introduced weekly certificates for the highest attending classes in KS1 and KS2. We look forward to celebrating the achievements of those children who still have 100% attendance by the end of the school year!

Important message from school council!

Help us to improve our school.
